Who are we?

At the heart of our cutting-edge technology is a commitment to real people. We're not just building solutions for businesses—we're designing them for everyday users who deserve a smooth, secure, and intuitive experience with their money. From paying transactions to giving people more control over their finances, everything we do is about making the easier for these everyday users.

Posten Group Norge today employs a team of 65+ people from over 20 nationalities across the world. United by a shared passion for innovation, we're building the next generation of payments and financial services, powered by one of the most advanced and cost-efficient open banking platforms in the market.
